<b>Title: ENERGY POLICY STATEMENT</b>	<b>Authorised by:</b>	<b>D Sigsworth</b>

## Energy Policy Statement

This policy exists for the purpose of energy management as defined in the energy management procedure for Sembcorp Utilities (UK) Limited to ISO50001:2011.

This policy sets the framework for setting and reviewing of energy objectives and targets through the assessment of energy baselines and the identification of energy performance indicators within the organisation.

The management and staff of Sembcorp Utilities (UK) Limited are committed to continual improvement which strives to reduce energy consumption within a challenging business environment.

Sembcorp Utilities (UK) Limited supports the purchase of energy efficient products and services and design for energy performance improvement for its operational assets on the Wilton International Site.

Sembcorp Utilities (UK) Limited will ensure compliance with appropriate standards and statutory obligations related to significant energy use, consumption and efficiency. In support of this the company will ensure the availability of information and necessary resources to achieve the defined objectives and targets.

All members of management and staff shall be familiar with the energy policy and procedures appropriate to their own work. They shall comply with all the relevant policies and procedures in support of this policy and shall receive training appropriate to their involvement within the process.

Signed:  (Dr. Douglas Annan)

Senior Vice President and Site Director
